

# **Charleston Soccer League**

## **Free Agent Information**

Players who don't have a connection with a team, but would like to join the League are placed on the "free agent list". We ask for the players name, age, contact information and level of skill and experience (former pro, college, high school, club, etc.) Prior to the start of each season, we have an organizational meeting and practice with all the free agent players. The League goes over CSL Policies and registers each free agent by collecting player information and fees. Additionally, the free agent players pick their own team names, team colors, and team captain. It's a way we can get to know the players and the players can get to know us, and what to expect from each other.

After the administration duties are taken care of, players are asked to participate in a scrimmage / practice. This allows the newly formed teams a chance to practice together and allows the CSL staff a chance to evaluate the team, so the team can be placed in the proper division.
